# APPLICATION GUIDELINES JAPANESE GOVERNMENT (MEXT) SCHOLARSHIP FOR 2019

## (RESEARCH STUDENTS)

The Ministry of Education, Culture, Sports, Science and Technology (MEXT) of Japan offers scholarships to international students who wish to study in graduate courses at Japanese universities as Research Students (either regular students or non-regular students) under the Japanese Government (MEXT) Scholarship Program as follows.

### 1. DEFINITION OF "RESEARCH STUDENTS"

Those who are enrolled in a master's course, a doctoral course, or a professional graduate course at a graduate school, or who are conducting research in a specialized field at an undergraduate department, graduate school, institute attached to a university, etc. without the aim of completing the course, or who are receiving preparatory education in the Japanese language and other subjects prior to placement at the university, etc. (Excluding the Young Leaders Program students or Teacher Training Students.)

### 2. FIELDS OF STUDY

Applicants should apply for the field of study they majored in at university or its related field. Moreover, the fields of study must be subjects which applicants will be able to study and research in graduate courses at Japanese universities.

The fields of study may be restricted to particular fields by the Japanese Embassy/Consulate General (hereinafter referred to as the "Japanese diplomatic mission") in the applicant's country.

Traditional entertainment arts such as Kabuki and classical Japanese dances, or subjects that require practical training in specific technologies or techniques at factories or companies are not included in the fields of study under this scholarship program.

A student who studies medicine, dentistry or welfare science will not be allowed to engage in clinical training such as medical care and operative surgery until he/she obtains a relevant license from the Minister of Health, Labor and Welfare under applicable Japanese laws.

### 3. QUALIFICATIONS AND CONDITIONS

MEXT accepts applications from international students for study in Japan who satisfy the following qualifications and conditions. Our aim is to foster human resources who will become bridges of friendship between the grantee's country and Japan through study in Japan and who will contribute to the development of both countries and the wider world.

- (1) **Nationality:** Applicants must have the nationality of a country that has diplomatic relations with Japan. An applicant who has Japanese nationality at the time of application is not eligible. However, persons with dual nationality who hold Japanese nationality and whose place of residence at the time of application is outside of Japan are eligible to apply as long as they choose the nationality of the other country and renounce their Japanese nationality by the date of their arrival in Japan. The First Screening must be conducted at the Japanese diplomatic mission in the country of which the applicant chooses the nationality.
- (2) **Age:** Applicants, in principle, must have been born on or after April 2, 1984. Exceptions are limited to cases in which MEXT deems that the applicant could not apply within the eligible age limit due to the situation or circumstances of the applicant's country (military service obligation, loss of educational opportunities due to disturbances of war, etc.) Personal circumstances (financial situation, family circumstances, state of health, circumstances related to applicant's university or place of employment, etc.) will not be considered for exceptions.
- (3) **Academic Background:** Eligible applicants satisfy the qualification requirements for admission to a master's degree course or a doctoral degree course at a Japanese graduate school. (Includes applicants who are certainly expected to satisfy the requirements by the time of enrollment.)

Students must satisfy any one of the following eligibility criteria.

- ⑤ Students who have completed 16 years of education at education institutions in Japan recognized as having overseas undergraduate programs.
- ⑥ Students who have completed designated professional training college courses.
- ⑦ Students recognized as having academic abilities equivalent to or better than university graduates in an individual entrance qualification examination conducted by a graduate school, and who have reached 22 years of age.

2 Doctoral program (second phase)

- ① Students with a Japanese master's degree or students with a Japanese professional degree.
- ② Students who have been awarded with an overseas degree equivalent to a master's degree or professional degree.
- ③ Students who have completed graduate programs at education institutions in Japan recognized as having overseas graduate programs and who have obtained a degree equivalent to a master's degree or professional degree.

In principle, a change in the arrival period is not permitted after the submission of the Application. If the applicant cannot arrive in Japan specified period below for personal reasons, travel expenses to Japan will not be paid. Excluding cases of unavoidable circumstances, the applicant must withdraw from this scholarship program if the applicant cannot arrive in Japan by the end of the designated period.

Accordingly, even if the applicant already has other residence status ("Permanent resident," "Long-term resident," etc.), the applicant must change it to the "Student" status and re-enter Japan. Moreover, the applicant should be aware that after expiration of the status as a MEXT Scholarship student and even if the student again applies for their original resident status of "Permanent resident" or "Long-term resident," the such resident statuses might not be necessarily granted.

However, this stipulation does not apply to privately-financed international students who, even though they are enrolled, or are planning to enroll, in a Japanese university, verifiably complete their studies before the start of the scholarship payment period, return to their home country at the time of the scholarship application, and newly acquire the "Student" residence status and come to Japan;

(3) The following policy will apply to each stage of screening:

- ① Examination of submitted application documents: Must show that the applicant's academic achievement at the university that he/she last graduated from equaled to or exceeded a certain level, and state the applicant's desired research program in a detailed and concrete manner.

A contact with universities requesting issuance of the admission letter made on Sat., August 25 or after is not permitted. Since Fri., August 24 is not the deadline for the universities to issue admission letters, applicants must not urge the universities for the issuance. However, applicants may confirm with the university if the scheduled time of the issuance is delayed. In addition, applicants should keep it in mind when planning to request admission letters that universities generally need one month to issue an admission letter. In order to contact universities, applicants may receive from the Japanese diplomatic mission contact information of the departments in charge of foreign students in Japanese universities and the websites to search Japanese universities and researchers.

(2) When requesting universities for admission letters, applicants must submit directly to universities the following documents.

**【Copies of the documents submitted to the Japanese diplomatic mission ("9.APPLICATION PROCEDURES") that were stamped by the mission and returned to the applicants】**

No.	Documents
①	Application Form
③	Field of Study and Research Plan
④	Certified grade transcript for each academic year
⑤	Graduation certificate or degree certificate of the last university attended
⑥	Recommendation letter from the president/dean or the advisor of the last university attended or the university currently attending
⑧	Abstracts of theses (only if submitted to the diplomatic mission)

Applicants must submit any other necessary documents requested by universities. Do not submit items ②Placement Preference Form and ⑦Medical Certificate. The documents to be submitted to universities can all be sent by e-mail, but in cases when it is difficult to access the Internet, the documents may be sent by postal mail. Please make sure documents ①, ③~⑥, ⑧~⑪ are stamped, and that all lettering and photographs are clear and legible. Please also note that if a copy of the certificate verifying passage of the First Screening is not submitted, the university cannot comply with the request to issue an admissions letter.

(3) Applicants must always report the response from the universities and submit the final Placement Preference Form based on the responses from the universities to the Japanese diplomatic mission by the specified deadline. It is not allowed to list in the Placement Preference Form the names of universities that have declined the applicant's request.

- (4) Applicants should confirm carefully with the universities the period of arrival in Japan specified in admission letters issued because it is not permitted, in principle, to change the specified period of arrival even if the applicants have stated in their Application Forms that they were able to arrive in either for the April term or the October term.

## **11. SECOND SCREENING AND UNIVERSITY PLACEMENT**

- (1) MEXT conducts the Second Screening based on the results of the First Screening conducted by the Japanese diplomatic mission in the applicant's country, and selects the applicants as the MEXT Scholarship Students as long as their placement to universities have been decided. An application may be rejected if it arouses concern over proliferation of weapons of mass destruction (WMD) and related items, e.g. a case where it is highly possible that the applicant will receive the technology that is controlled pursuant to United Nations Security Council resolutions, or that any WMD-related technologies will be transferred to an applicant who belongs to (an) organization(s) on the End User List published by the Ministry of Economy, Trade and Industry of Japan.
- (2) An applicant who successfully passes the Second Screening will, in principle, be placed at the university from which the applicant has received an admission letter. MEXT will hold consultations with the three preferred universities listed in the applicant's Placement Preference Form and place the applicant at the university that approves the admittance as result of the consultation. However, should the applicant wish to enter either a public or a private university and not a national university, the applicant's preference order specified in the Placement Preference Form may not be met due to restrictions on the Japanese government's budget preventing the covering of higher tuition and other costs at such universities. Any objection by the applicant to the decision on the university placement will not be accepted.
- (3) Applicants who receive admission letters for admittance to the regular course at a graduate school will be directly placed in the said regular course without going through the period of the non-regular student.
- (4) If an applicant is judged by the accepting university, based on the results of the written language test given in the First Screening, not to have adequate Japanese language proficiency to understand lectures or research guidance for experiments or practical training at the university, the applicant will be placed in a Japanese-language training course at an institution designated by the university of placement or MEXT for the first six-month period after the arrival in Japan. Upon completion of the Japanese language training, the grantee will enter the university of placement for advanced education. However, if the grantee's record of achievement in the language course is poor and the grantee is judged to be incapable of receiving advanced education, the scholarship payment will be stopped. (See "4. PERIOD OF SCHOLARSHIP.")
- (5) If a grantee is deemed by the accepting university to have sufficient Japanese language proficiency to conduct his/her research, the grantee may directly enter the university of placement as a regular student or a non-regular student.
- (6) Applicants will be notified by the Japanese diplomatic mission of the final results of the Second Screening and the result of the university placement for successful candidates from November to February the following year. Any objections to the decision on the university of placement will not be accepted.

## **12. UNIVERSITY ENROLLMENT AND ACQUIRING OF DEGREES**

- (1) If a grantee desires to move on to a regular course for a degree from a non-regular student course, or to a doctoral course from a master's course or a professional graduate course, he/she needs to take an entrance examination administered by the relevant university and pass it. To continue receiving the MEXT scholarship after advancing to a higher level, the grantee must undergo another screening examination and be awarded an extension of the scholarship. (See "5. EXTENSION OF PERIOD OF SCHOLARSHIP.") A grantee cannot apply for an extension of the scholarship period while enrolled as a non-regular student.
- (2) If a grantee desires to advance to a regular course for a degree from a non-regular student course, in principle, he/she must move on to the graduate school of the university at which he/she is studying as a non-regular student. If proceeding to the graduate school is deemed to be inappropriate given the grantee's major field or ability, he/she may be allowed to transfer to another graduate school, provided that, he/she is admitted to it.
- (3) While the entrance examinations to graduate school vary depending on universities, assessment of the applicant's foreign language competence, grasp of the specialized subject for study, plans for the graduation thesis, etc. are normally included.
- (4) Under the educational system of Japan, a typical master's degree course lasts for two years subsequent to graduation from a university (i.e. after completion of 16 years of school education), and a typical doctoral degree course lasts for three years after completion of a master's course. If a student has completed such a two-, or three-year course, obtained the necessary credits, and passed the final examination after submitting his/her graduation thesis, he/she will be granted the relevant degree.
- (5) In the fields of medicine, dentistry and veterinary science, and pharmacy which is based on a 6-year course at a department or faculty, most of the universities offer only 4-year doctoral courses. For admission to such a doctoral course an applicant is required to have completed 18 years of school education. If an applicant completed 16 years of school education, he/she is required to have engaged for two or more years in research activities at universities or research institutions subsequent to completion of the 16 years of education, and to be deemed by a graduate school in Japan as being academically equal to an applicant who completed 18 years of formal education.

(6) Professional graduate schools were opened in 2003 with the aim of developing individuals with deep knowledge and outstanding ability in their field in order to support professions that require sophisticated expertise. The standard required duration of study is two years. In some fields of study, the duration is less than two years but more than one year. Upon completion of the course a master's degree (specialized occupation) is conferred. Among the professional graduate schools are "graduate schools of law." These schools require a standard duration of study of three years. Upon completion of the course a student will be granted the degree of "Doctor of Law (specialized occupation)."

### 13. NOTES

- (1) The grantees are advised to learn, before departing for Japan, the Japanese language and to acquire information about Japanese weather, climate, customs, university education, and conditions of the university to attend in Japan, as well as about the difference between the Japanese legal system and that of his/her home country.
- (2) As the first installment of the scholarship payment will be made from one month to one and a half months after the grantee's arrival in Japan, the grantee is recommended to bring at least approximately US\$2,000 with him/her to Japan to cover immediate living expenses and other necessary expenses.
- (3) The scholarship payments will be transferred to the bank account opened by each grantee after the arrival in Japan. These bank accounts have to be opened at a Japanese financial institution designated by MEXT.
- (4) Grantees must enroll in National Health Insurance (NHI) upon arrival in Japan.
- (5) Accommodations:
  - ① Residence halls for international students provided by universities:

Some universities have residence halls for international students. The grantees enrolled at such universities may reside at these residence halls under certain conditions. However, due to the limited number of rooms, some of these facilities may be unavailable.
  - ② Private boarding houses or apartments:

Those who are unable to find accommodation in the aforementioned facilities may live in regular dormitories of the university or in private boarding houses/apartments. It is difficult for grantees with dependents (spouse and children) to find appropriate housing in Japan. The grantee is requested to arrive in Japan alone first to secure housing before having his/her dependents come to Japan.
- (6) Information regarding the MEXT Scholarship Students (name, gender, date of birth, nationality, accepting university/graduate school/undergraduate school, field of specialty, period of enrolment, career path after completion of scholarship, contact information [address, telephone number, e-mail address]) may be shared with other relevant government organizations for the purpose of utilization for international students programs implemented by the Japanese Government (support during period of study in Japan, follow-up survey, improvement of the international student system).

Information regarding MEXT Scholarship Students (excluding date of birth and contact information) may be included in publicity materials prepared by the Japanese Government for promoting the acceptance of international students in Japan, particularly in order to introduce former MEXT Scholarship Students who are playing active roles in countries around the world. These terms and conditions are included in the Pledge stipulating rules and regulations which MEXT Scholarship grantees must comply with and submit when they have been granted the Scholarship. Excluding exceptional circumstances, only those concurring with these conditions will be accepted as MEXT Scholarship grantees and will be granted the Scholarship.
- (7) The English texts attached to the Application Guideline and the Application Form are for complementary use only. The Japanese versions of the Application Guideline and the Application Form take precedence, and any English expressions do not change the Japanese content.
- (8) If there are any questions about the content of the written text or any other matters, applicants/grantees should inquire the Japanese diplomatic mission in the applicant's country and follow their instructions.
- (9) In addition to the regulations stipulated in this Application Guideline, those that are necessary to implement the Japanese Government Scholarship programs shall be determined by the Japanese Government.
